

LOOK DESCRIPTION

Shinnoki Ivory Oak

SHINNOKI® PREFINISHED
WOOD PANELS

DESCRIPTION

Ready-to-use wood veneered panels and veneer laminates, brushed, stained and lacquered, requiring no additional finishing. The Ivory Oak look combines European white oak veneer with the Ivory colour staining.

All panels have a homogenous, planked surface thanks to the mixmatch jointing technique where veneers from different trees and varying slicing techniques are randomly jointed.

PREMIUM

Touch	Ultrasoft	
Gloss	2 ± 1 (at 60°)
